### PROFILE

I am Bagthariya Smit I have completed Android Development course in Tops Technologies. I have completed my Diploma in Computer Engineering. I am passionate about learning new technologies and building innovative mobile application

### PROJECTS

#### • E-commerce App

Developed a user-friendly shopping app with features like user authentication, categorized product listings, cart management, and order placement. Integrated REST APIs using Retrofit for efficient network operations. Implemented Dark Mode and responsive UI for a modern user experience across all Android devices.

#### • E-Learning App

Built an Android app with offline quiz system using Room DB and OOP concepts. Included login/signup, dashboard with quiz & Q&A, SharedPreferences for session, and RecyclerView for categorized questions.
